SPECIAL TELEGRAM.

TRIP TO TRENQUELAUQUEN.

E. T. Mulhall
TO
STANDARD.

Bragado, 27th.
12 58 p.m.

It is raining hard here. The camps look magnificent. So far shearing has not been begun in this direction. The wheat plantations are everywhere well advanced, and there is not even the shadow of a locust.

In Chivilcoy, at the station, there are 300,000 bags of maize ready for export, and the station-master told me that there are still some 40,000 tons in the district for export. Agricultural machines are arriving every day, and the chacareros calculate that this season the crops will shew an increase of 30 per cent over the last.

Many persons invited did not turn up this morning, and our party is—Mr. Roberts, General Manager of the Railway; Mr. Adams, Resident Engineer; Mr. Thurburn, Manager of the London Bank; Mr. Hunt, Manager of the Rosario Railway; the Managing Director of the Banco Sud-Americano, and Mr. E. T. Mulhall (STANDARD).

Paris, 26th (delayed).—The decision of Premier Loubet in the Carmaux case has caused general disgust. Government will be questioned about it to-morrow in the Chamber, and will probably be defeated.

Paris, 27th—The Italian Ambassador is trying to induce the French Government to renew commercial relations with Italy on the basis of the minimum tariff. The French Government is willing, but fears opposition in the Chambers.

Paris, 27th—The Committee of the strikers at Carmaux refuse to submit to the decision of Premier Loubet, and will continue the strike till all the demands of the miners are granted.

Berlin, 27th—It is the general opinion of the German press that the Reichstag will throw out Caprivi's Military Bill.

(To the "Prensa".)

THE CHILIAN BUDGET.

Our trans-andine neighbors, in spite of the recent civil war and of the preceding war with Peru, have reason to rejoice that their financial position is by no means unsatisfactory. In matters of revenue and paper-currency that republic compares with Argentina as follows:—

	Revenue	Paper-issue
	$ currency	$
Chile.....	63,330,000	51,000,000
Argentina.	77,400,000	290,000,000
	$ gold	$ gold
Chile.....	23,700,000	19,200,000
Argentina.	24,400,000	90,600,000

The revenues of the two countries, reduced to gold at the present rates of exchange, are nearly equal. But as regards paper-money the Chilian revenue for 10 months would suffice to redeem theirs, whereas Argentina would require 4 years.

Chilian revenue is summed up in four items:—

	$ currency	£sterling
Nitrate duties..	25,000,000	= 1,880,000
Import dues....	20,000,000	= 1,500,000
State Railways.	14,000,000	= 1,050,000
Sundries.....	4,330,000	= 240,000
Total.....	63,330,000	4,670,000

The estimated expenditure is only $53,280,000, leaving a surplus of $10,000,000, which it is proposed to apply towards redemption of the paper-money by June 1895. The paper-issue is made up thus:—

	$
Government notes....	19,870,000
Balmaceda's tickets..	12,000,000
Treasury notes.....	9,500,000
Issue of banks.....	9,630,000
Total.....	51,000,000

These notes at their present value of 18 pence represent a sum in gold of only £3,800,000, and if even the price of redemption were fixed at 24 pence it would not be difficult for Chile to procure a stock of gold equal to 60 per cent, say £3,000,000 sterling, which would be a reserve amply sufficient for the proposed conversion.

The currency of Argentina to be converted at 24 pence would represent a value little short of £30,000,000, and the necessary reserve of (at least) 50 per cent would call for a special loan amounting to £15,000,000 sterling. When we remember the great effort that it cost the Italian Government to borrow £18,000,000 for redeeming of paper-money we cannot but conclude that the prospect of redeeming Argentine currency is exceedingly remote. In the ordinary course of events no man or woman now living can hope to see such a consummation. Six years ago it would have been quite feasible, but since then the issue has been increased from 70 millions to nearly 300 millions.

On the whole the financial position in Chile is much better than ours. They have revenue and expenditure nearly balanced, whereas our Treasury payments last year were $124,300,000, and our revenue was only $77,400,000: the condition of the provinces is much worse still.

TRADE WITH G. BRITAIN.

The trade-returns published last week for the year 1891 compare with the preceding year as follows:—

	Imports 1890	1891
	$ gold	$ gold
RR. materials..	25,560,000	9,930,000
Dry goods.....	15,150,000	9,120,000
Coal.....	4,440,000	3,160,000
Hardware.....	5,050,000	2,530,000
Sundries.....	7,620,000	3,570,000
Total.....	57,820,000	28,310,000

Every branch of imports of British merchandise shews a heavy fall, the aggregate for 1891 being less than half of that of the preceding year. The suspension of railway construction accounts for a decline of nearly 16 millions, and the impoverished condition of the country, accentuated by Protection and high duties, explains the rest. The average value of imports for 5 years ending 1890 was 45,400,000$.

As regards Argentine exports to Gt. Britain we find as follows:—

	Exports 1890	1891
	$ gold	$ gold
Maize.....	6,805,000	360,000
Wheat.....	3,870,000	8,400,000
Froz. mutton	1,530,000	1,695,000
Hides.....	1,690,000	1,440,000
Wool.....	1,445,000	590,000
Tallow.....	620,000	500,000
Timber.....	610,000	670,000
Linseed....	570,000	210,000
Sheepskins.	510,000	470,000
Sundries....	1,650,000	2,465,000
Total...	19,300,000	16,800,000

The quantities exported shewed thus:

	1890	1891
	tons.	tons.
Wheat.....	129,000	140,000
Maize.....	340,000	17,000
Mutton.....	19,000	21,000
Wool.....	4,800	2,250
Tallow.....	5,400	4,300
Linseed	14,400	3,500

In 1890 the tariff valued wheat at £6, in 1891 at £12, per ton, the latter being fully 80 per cent over the real value.

By devices of this kind the Government would have us believe that the exportation of wheat in 1891 was double that of the preceding year, whereas there was but a trifling increase. A system of this kind naturally throws ridicule on Government statistics.

Shipping returns shew that the entries of British vessels into Argentine ports were—

	1890	1891
	tons.	tons.
Steam....	2,292,000	2,129,000
Sail	358,000	236,000
Total...	2,650,000	2,365,000

It is very surprising that, whereas the imports of British merchandize fell 52 per cent, the tonnage of British vessels declined only 11 per cent.

UNITED STATES.

New York, Sept. 17th.

The staff of the Grand Marshal of the Columbus celebration parade assembled in the New York Hotel yesterday to receive instructions from Gen. Martin T. McMahon as to the duties which they would be expected to perform. It was announced by Gen. McMahon that the right of the procession would rest on Bowling Green; and that the route of march would be up Broadway to Fifth Avenue. There will be 150 cadets from the Roman Catholic Asylum, and 150 from the Roman Catholic Protectory, and the same number of St. Paul's cadets. There will be 10,000 children under twelve years old in line from this city's public schools and 4,000 from Brooklyn's public schools.

The committee received a communication yesterday from Gov. Flower, stating that it would not be necessary for the entire National Guard to be out on the day of the military parade. There will be 2,000 militiamen from Connecticut, 2,000 from New Jersey, 3,000 from Pennsylvania, and 1,000 from Rhode Island. The Governor did not designate what New York regiments would be ordered out. The visiting troops will be accommodated in the armories here and in Brooklyn.

The ceremony of laying the cornerstone of the Christopher Columbus Monument will take place to-day. There will be a parade at 10 o'clock, after which the cornerstone will be placed in position by Mayor Grant, and at 2 o'clock the blessing will be pronounced by Archbishop Corrigan.

The old steamer Caroline Miller of blockade running notoriety has turned up with a new name, South Portland, and lies at anchor off Ellis Island with a Custom House officer on board. She is detained under suspicion of attempted violation of the neutrality law. On board of her are 1,391,000 cartridges, 200,000 caps, 4,000 muskets, 90 rifles, 5 Gatling guns and a carriage, 30 machettes, and 10 swords, which according to her papers, appear, to be consigned to Francisco Gonzalez, Port au Spain, Trinidad, Mr. Gonzalez himself being the consignor. The vessel has also on board cases of firearms and 14,000 cases of cartridges consigned to Mr. Gonzales by J. B. Garcia, a commission agent at 35 Broadway. It is suspected that the South Portland was loaded not for Trinidad, but for Venezuela, and that the intention was to take this cargo and ammunition to aid the insurgents in Venezuela in the attempt to overthrow the Government.

Wilmington, Sept. 14—The departure from Brooklyn last Sunday morning of the cruisers Chicago and Philadelphia, under the pennant of Rear Admiral John G. Walker, under sealed orders for La Guayra, Venezuela, has given rise to much speculation concerning the mission of these two vessels of war.

One theory is that the object of the movement is an inquiry into the recent encroachment of the British Government upon the territorial possessions of Venezuela. Another is that the war ships are sent out to enforce the rights of American citizens and investigate seizure by Gen. Urdaneta of ex-refugees found on the Red D steamship Venezuela several weeks ago, while that steamer was in Venezuelan waters.

The Hon. Thomas F. Bryard, who, while Secretary of State under President Cleveland, gave considerable official attention to the subject of British aggressions in Venezuela, in an interview with a reporter this afternoon, said:—

"The question of the boundaries of Venezuela, where they approach those of British Guiana, has been for a long time a vexed question between Venezuela and the Government of Great Britain, or, rather, private companies of British subjects engaged in gold mining in what is known as the Orinoco region.

"I was never disposed to believe, after pretty full examination of the subject, that there was any design upon the part of Great Britain to expand her jurisdiction as a nation over the territory in dispute: but I believe, and I think a true history of the case will show, that the differences had their origin in large mining concessions obtained by British subjects, as private enterprises, from the Government of Venezuela, and, consequently, the investment of a great deal of British cspital in the development of these rich mining regions.

Mr. Charles F. Peck, Commissioner of the State Bureau of Labor Statistics, is likely to find out, before he is done with the National Democratic Committee, that he cannot prostitute his office to his personal ends without incurring a grave responsibility which the law will enforce. Mr. Anderson, in behalf of the committee, having presented an affidavit to the proper court accusing Mr. Peck of making misleading statements, has secured an order for that official to show cause why he should not be compelled to disc'ose the evidence on which he based, or pretended to base, these statements, in order that the truth may be ascertained. Mr. Eaton has extracted from the ash barrel at the apartment house, 27 South Hawk Street, charred remnants of official papers which Mr. Peck had hired the janitor, William J. Dennison, to burn.

Enough of some of these partly burned papers has been secured to show conclusively that they were the replies to the tariff circular sent out by Mr. Peck. The answers to the questions and the names of firms could be made out easily on some of the fragments. These are the documents which the special committee of the National Democratic Committee have endeavored to get sight of by process of law.

Mr. Peck was arrested last night at Albany, and his examination will take place to-morrow. The warrant was issued under Section 94 of the Penal Code, making Mr. Peck's act a misdemeanor. Mr. Peck's defence will be that the papers were of a personal character, and not official in any sense.

On Friday the President directed that all transatlantic steamship companies should be warned that if they should continue to bring immigrants from infected ports their ships might be excluded from all our harbors. This warning appears to have been suggested by the continued shipment of immigrants in vessels carrying no cabin passengers, and by the extraordinary number of so-called "second-cabin" passengers taking passage in the last few days on ships from which steerage passengers are excluded.

The National Encampment of the Grand Army of the Republic will be held at Washington Sept. 19 to 24 1892. The occasion will undoubtedly attract the largest number of veterans ever assembled on a similar occasion, and the review will be the most imposing demonstration ever witnessed in this country since the historic review of the army in 1865.

Letters from London say that the huge army of Americans, which is customarily enriching Continental resorts for tourists is now encamped in seried legions all over the face of England, Scotland, Ireland and Wales. There never has been anything like it since the Norman Conquest. London's hotels literally groan under the weight of Saratoga trunks. To dine at the Savoy now or at the Victoria is like being at Delmonico's. Apparently everybody you know in America is there. Stratford, Warwick, Kenilworth, Chester—all now speak with a Vermont accent, and Killarney dreams o' nights that Chicago is an illusion and the World's Fair is really being held there.

The latest news from Buenos Ayres is that an expedition against Indians in the Chaco, apparently conducted by private parties, recently returned with a number of prisoners and 150 horses. It was apparently a pillaging expedition. The Indians will become slaves and their horses will be treated as spoils.

PROVINCIAL NEWS.

DEFEAT OF THE SANTIAGO REBELS.

The telegrams received yesterday report an encounter between the forces under Adolfo Ruiz—one of the most active supporters of the deposed Governor—and the rebels headed by Retondo. The fight took place at Gramilla, outside Santiago, and resulted in the defeat of the rebels, Retondo being mortally wounded.

The latest particulars of the fight will be found in the following telegram:—

Gramilla, Oct. 26, 11 p.m.—What we anticipated has occurred. The revolutionists under Gimenez having been defeated near Rojas, we hurried to reinforce our comrades here. The National Deputy Adolfo Ruiz knew that Retondo and his men were expecting us. It was decided to leave Gimenez retire and concentrate ourselves here. Adolfo Ruiz personally led the attack.

Diaz, Suarez and myself formed the vanguard. The firing lasted two hours. Finally, we charged with the sword. Deputy Ruiz was ubiquitous. Ultimately, Retondo fell mortally wounded and his men fled, leaving several killed and wounded on the field.

Another telegram runs as follows:—

Santiago, Wednesday—Gimenez reports that he gave battle to Ruiz's forces. The fight lasted till nightime, when, owing to the obscurity, Gimenez withdrew with his men. As Retondo did not put in an appearance, he is supposed to have been killed. Ruiz is said to have had 150 men, while Gimenez only had 30.

Dr. Bravo, Chief of Police, has gone to La Banda to obtain authentic particulars of the fight at Gramilla. The Junta has received contradictory and alarming advices. At this moment (midnight) the La Banda Commissary asks for reinforcements, as he is afraid that Ruiz's men are in the train which is expected to arrive with the wounded. The reinforcements solicited will not be sent, it being considered unnecessary to do so. [Later]—The train has arrived but the wounded have not come in it. It appears they did not get to the the station in time, and the train did not wait. Nothing known about the special train. It is said that a good many were killed on both sides. Great anxiety in the Cabildo.

It is rumoured that Ruiz's men took Retondo prisoner and shot him.

Forces are being organized to send against Ruiz. We are making preparations to receive the wounded.

A nice state of affairs this. It is quite evident that the rebels are not having it all their own way and that if Rojas's partisans are an insigoificant minority they are significantly triumphant in the battle-field. The question is becoming very complicated, and if the Interventor delay much longer he may find Governor Rojas reinstated on his arrival in Santiago.

An ugly rumor, which, we trust, is unfounded, has got abroad in reference to the present struggle going on in Santiago, where all the brutality of the vœ victis principle is said to disgrace the arms of the triumphant party. The "noble ends," the "patriotic energy," and such like high sounding qualities, so repeatedly alluded to in the political manifestoes and perchance possessed by many of those who have fought in the so-called popular cause, sound like a hollow mockery, if it be true that the houses of peaceful citizens have been broken into and pillaged, and the inmates subjected to such outrages as that recorded in the case of the owner of the Umberto Restaurant, who is said to have been brutally murdered in the presence of his wife and children. Even the tender years of innocent childhood were, it is said, powerless to disarm political animosity. A child of 11, connected with the Governor's household, is said to have been killed. Let us hope, for the sake of humanity, that all this is false.

THE STORM IN MONTEVIDEO.

Thursday Evening.

At 10 o'clock yesterday morning the port authorities here received a telegram from the Villa Colon Observatory to look out for squalls towards 1 p.m. The forecast was correct. At 1.30 p.m. the wind commenced to blow with the violence and fury of a hurricane, and some damage was caused. In front of the Ansa saladero, a lighter belonging to the establishment foundered and it is thought that the two men on board were drowned. The steamer Lavalleja broke from its mooring and nearly ran foul of the Custom's mole but for the timely aid of the tug Cacique. The tug Pampero saved a lighter which was on the point of being capsized. The tug Emperor saved a pontoon which had broken from its moorings and was drifting towards the coast. Many of the boats near the mole went to the bottom.

A fishing-smack with 12 men was blown ashore on the Playa Ramirez. The crew succeeded in escaping.

The steamer La Plata, belonging to Messrs. Lussich & Sons, had a very narrow escape. She was caught by the storm on her way to Flores Island to fetch the mails by the Itaparica.

A boat of the German steamer Wartburg broke away with three men in it. The Italian warship Dogali came to the rescue and saved the boat and men, for which reason the Dogali has been put in quarantine, as the Wartburg is still under observation.

At Tigre Punta a lighter sank, but the crew were rescued.

Several lighters were blown ashore on the Aguada.

The steamers Eolo and Rivadavia could not leave for Buenos Ayres.

The tug Orden sank off the Buceo, but the five men on board were saved.

The rain fell in torrents all over the country. Considerable damage has been caused by the storm in the quintas in the environs of the city.

PAPER-MONEY OF BRAZIL.

Assuming that the Treasury will take over the responsibility for the issue of the various banks, we may proceed to show that this action will not burden the Treasury with excessive charges upon its resources. According to the report of the minister of finance there were in circulation on December 31st last:

	$
Notes against bonds.....	75,901,000
Idem idem gold.....	270,214,000
Total.....	346,115,000

against which the Treasury held, or should have held, gold valued at par, to the extent of $97,850,000, and $75,901,000 in government bonds at par. There is no discrimination as to the bonds deposited; it may be presumed, however, that the 1889 gold loan largely predominates. But even assuming that the deposit is entirely in 5% currency stock, the annual interest, or $3,795,000 pertains to the Treasury, and this means a sinking fund of 1% per annum on the total issue taken over by the Brazilian Treasury. We propose to ignore the gold deposited, for we frankly confess we do not believe it exists in the coffers of the Treasury. But to continue our argument. The saving—or non-payment—of the interest on the $75,000,000 deposited, and the saving—or non-payment—of the interest on the $39,857,000 of the 1889 loan purchased by Ruy Barbosa with gold deposited by the banks, which even at 15d. exchange represents nearly $2,900,000, will reach a total of $6,600,000 per annum, which may be applied to withdrawing currency, if this be considered necessary, which we confess seems to us questionable. Can any more innocuous means be found for strengthening the value of the Brazilian paper money? But we propose to go further. The currency fives are at present worth in the market 102, and the gold fours are quoted at about 120. The Treasury could not dispose of the 115,000,000$ of the two classes of securities which it will hold without causing a serious decline in the market, but a demand equal to the supply could be created by a much simpler process than was provided by Sr. Joao Alfredo's bank law in 1888. Our proposition is that instead of the government authorizing banks to issue currency against the deposit of bonds, it merely issues currency itself against such a deposit. To explain why we have arrived at so apparently startling a conclusion, our preface is that we have lost all faith in any attempt at establishing small local banks in Brazil, which has been so successful in the United States, and the experience of the past two years proves to us conclusively that a great central bank is above the capabilities of the present Brazilian financier. We would therefore have a section of issue at the Treasury where any possessor of 50,000$ of any class of government securities could obtain 90% of the par value of such securities, for periods not to exceed six months, upon payment of interest equal to 1% per annum over that earned by the security deposited. The moderate advance and relatively high interest would prevent undue applications for loans, while a species of elasticity would be imparted to the currency, which it appears to us cannot be otherwise obtained. We are quite prepared to have every economist cited to prove the radical character of our proposition; but we maintain that it is wholly practical. We claim no originality. The idea of charging 1% over the interest earned by the deposited securities is palpably copied from the United States National Banking law that taxes the issue of the banks. What we wish to obtain is a currency that will ebb and flow with the real demands of commerce and trade, and be once and forever relieved from the demands and threats of desperate speculators. A demand for government securities would be created, for these would be always available as cash among the assets of companies and commercial establishments, and a crucial test would be applied to the unsettled question as to a superfluity, or a scarcity of circulating medium in Brazil.—*Rio News.*

The Land League held a meeting on Wednesday and named Committees and commissioners to look into the recent abuses of power at Bolivar, Magdalena, and General Guido. We are glad to see the League at work, and wish it the best success.

RESULT OF THE MACKINLEY TARIFF.

The comparison of our foreign trade for the first seven months of the present calendar year with the same months of earlier years is not especially favorable to the operations of the existing Tariff law. The law seems to have been effective in curtailing imports in some cases where this was intended and ineffective in other cases, while the imports generally shew a tendency to return to the channels from which they were diverted by the first sharp effects of the new legislation. Woolen goods, knit goods, and linen goods all show an increase for the first seven months of 1892 over the same months of 1891, but high duties show their effect in keeping the figures below what they were before the McKinley Act took effect. The striking feature of our import trade is the fact that it has not substantially increased within the past four years. The increase in population and in consuming power in that period has been about ten per cent. but our imports do not share in this advance. Indeed, if the single article of coffee, which has been free of duty for twenty years, is deducted from the total imports, there is a decided falling off since 1889.

The figures for 1892 can be made to compare even more unfavourably with those for 1891 if the increase of nearly $2,000,000 in india rubber is also deducted from the total for this year. India rubber has been free of duty for many years, and was not affected by the McKinley Tariff. The imports of tin plate for the first seven months of the present year have been only $10,900·000, against imports in the same months last year of $23,000,000. This might go to bolster up the theory that American tin plate was generally taking the place of the foreign articles if it were not that the imports of last year were abnormal, before the high tariff took effect on July 1, and that the imports this year were returning to the normal figures of two or three years back.

One of the most striking facts shown by the Treasury statistic is the failure of the new tariff to increase the proportion of raw materials imported or to increase the percentage of manufactured articles exported from the United States to other countries. The proportion of articles partly or wholly manufactured, for use as materials in the manufactures and mechanic arts, has fallen within a year from about thirteen per cent of the total imports to about ten and a half per cent. The country has gained ten per cent. in population and producing power in four years, but exports of manufactures have remained at a standstill, while exports of other articles have rapidly increased. Our exports have fallen off since last year in manufactures of cotton, woolen goods, gunpowder, nearly all kinds of iron and steel, harnesses and saddles, musical instruments, glassware, naval stores, manufactures of stone and marble, jewelry, paints and colors, soap, cigars and cigarettes, wine and malt liquors, and manufactures of wood, paper and stationary.—*N. Y. Commercial Bulletin.*

FLORES CRICKET CLUB.

B. Ayres, October 27th.

Mr. Editor,

Perhaps the Hon. Sec. of the above club would inform me, through your valuable paper, when he is going to draw up a list of cricket fixtures

If he does not make haste, we shall find ourselves in the middle of the season without having played a game.

The ground not being yet prepared should not alter the case, as some of the "away matches" could begin the list.

Anxious.

RAILWAY ITEMS.

Mr. William White, in behalf of the B. Ayres and Rosario Railway, has applied to the Government for authority to open the Belgrano Las Conchas branch from San Fernando to kil. 20 for goods' traffic. This is a very necessary step in the interest of trade.

The Inspector-General has reported very favorably on the proposed bridge across the Rio Chico in Jujuy. The bridge will not cost much, and it is much needed.

CONGRESS.

THE SENATE.

The House met at 3.20, and began by tackling the extra credits asked for by Government.

That asked for the War Office, for $339,000, was thrown out, "nem con."

A vote of 234,000 for the Departments of Justice, Worship and Education was passed, and the House rose at 4 p.m.

EDITOR'S TABLE.

Nothing particularly flattering was said of the weather yesterday, though the rain was worth millions for our camp friends, who, however, are trembling for their shorn flocks. The news from Santiago was that the tables are being turned on the rebels; and, if the Interventor does not hurry up, he may find Governor Rojas reinstated in the Government House and his own occupation gone before it begins.

The following numbers won the five big prizes in the Beneficencia Lottery yesterday:—

No. 20840.....	$20,000
15618.....	5,000
13940.....	1,000
1585 and 4050.....	500 each.

We have to thank Messrs. Joly and Co. of 721 Calle Victoria, for sending us their attractive Almanacks for 1893, including that of "Las Porteñas," the fame of which we need not refer to.

Dr. Costa, the Interventor, leaves to-day at noon for Santiago del Estero with $10,000 in his pocket for expenses. General Arias, who commands the troops, gets $2 000 for "gastos."

The *Novedades* published last night some very alarming news about the question with Chile: a secret Message to Congress, fortifications in the Andes, etc., etc. "Quien sabe?"

President Peña has decided that the Minister of Foreign Affairs must deal with all matters in reference to the sad Rosales affair, as the Minister of War's son is mixed up in it, and H.E. cannot touch it.

It may interest some of our readers to know that the Custom-house is going to sell by auction some 700 boxes, trunks, portmanteaus, &c., that have been lost by their owners since 1887. We observe among them the following:—

B. C., Wexford.
C. C., Leibnitz.
J. S, 3 boxes, Araucanía, 1890.
W. B. Flint, 1890.
Martha P. Tucker, Aug. 1890.
William Branfort, several boxes.
E. S. Mayberry, Juue 1890.
Thomas Foley, 29 pges,

and hundreds of others too numerous to mention. See 4th page of the *Diario* of yesterday

Gentle beer again. We thank Mr. R. Wendelstadt, manager of the Quilmes Brewery, for his kind invitation to a "cerveza" party there to-morrow, to celebrate the second anniversary of this now highly prosperous concern. Special leaves the C.S. at 12.50, returning at 5.55.

The performance at the San Martin Theatre on Monday night next for the benefit of the German Hospital will be a grand affair. The programme is an epic poem: 1st and 2nd acts of Satanello; walse sung by Tetrazzini; Vago Augel, sung by Cesari; and Cavalleria Rusticana for a night-cap. Prices very low: Boxes only 25 dollars, and all the rest of the house in proportion.

The Sport shops are doomed. Aldermen O'Farrell, Morel and Carrasco have laid a project before the Town Council to abolish them in toto; and it will pass as sure as the great gun of Athlone.

There was a $13,000 blaze in Mr. Oneto's flour mill in Calle Tacuari at the top of yesterday morning, say 1 a.m. A lot of empty sacks and boxes and some wheat ended in smoke. Mr. O. says that the fire was the work of an incendiary, and the peon in charge is in durance vile.

There is sorrow in the War Office. No more "mate" allowed. Clerks must drink tea or whisky and water, and at their own expense. Aye, there's the rub.

The following are the principal prizes drawn in the Montevidean Lottery:—4401 with 20,000$; 2364 with 1000; 5294, 500; 6870, 500; 3048, 200, 8136, 200; 5048, 200; 4256, 100; 7983 100; 7053, 100; 5595, 100; 10142, 100; 10292, 100; 7561, 100.

There was a queer scene in Calle Moreno on Wednesday night when an elegantly dressed young man suddenly flew at a lady and gentleman who were quietly walking along and began to pommel them both with a pair of little fists as white as alabaster. When taken to the Comisaria the young "man" turned out to be a lovely girl. She told the Commissary that the gentleman she had attacked was her promised husband: and the telegrams from that forlorn place smack as if another Interventor will soon be required by the National Government. Indeed, the political atmosphere nearly all over the country affords a fine opening in the Interventor line for pushing young men with good recommendations.

Dr. Freire had a large audience to witness his meat preserving experiment at the Rural Society's rooms on Wednesday. His process is simplicity itself, and consists simply in pumping into the tins in which the meat is placed a certain kind of gas which he has invented. We hope it's not all gas. We have seen the premature demise of so many meat-preserving inventions that we are in a state of most painful anxiety as to the upshot of this latest one.

Taxation follows a man even to his grave in this quarter of the earth, and would follow him into eternity if it could. The Lord Mayor wants to pave the Chacarita Cemetery, and there can be no doubt as to its wanting pavement; so he intends to clap a tax on all the hearses that enter the gloomy spot, and we suppose he will coax the Wise Men to sanction it.

Messrs. Funes and Lagos sold yesterday all the splendid furniture in ex-President Pellegrini's house in Calle Florida, and obtained good prices; as many of the household goods figured at the Paris Exhibition.

What a mean papa! A man told his daughter that if she learned to work he would give her a surprise. She learned the art, and he surprised her by discharging the servant girl.

Depressing intelligence from Entre Rios. Maize all eaten up by the Locusts. It seems rather early for them to begin on the maize.

The Rural Society's first Flower Show of the season, got up by Mr. Richard Newton, will come off to-morrow night, and will be very attractive, as most of the nurserymen in town will compete.

That flood in China seems to have been rather a big one, and we defy our esteemed Cousin Jonathan to beat it, even for the Chicago Exhibition. In the way of floods John Chinaman licks creation. Fifty thousand people drowned with him are much about the same as fifty in any other part of the world. If J. C. was of a fighting and conquering disposition, he could make the rest of the world hum.

More than fifty years ago, the late Lord Lytton wrote:—"In the laws of England there are somewhere about 150 laws by which a poor man may be hanged," but not one by which he can obtain justice for nothing. This anomalous and distressing condition of affairs has been in our day, to a great extent, remedied, but it is the proud boast of "The English" in the Argentine Republic that all classes of society, rich and poor alike, can now at No 594, Calle Cangallo, purchase Improved Pyjama suits by means of which comfort and health can be materially increased. There also, and nowhere else may be bought socks of genuine English make at $5,90 the half-dozen, as well as travelling bags, umbrellas, sticks, gaiters, shirts, handkerchiefs, scarves, ties, and in fact every description of underclothing and fancy goods, all of unapproachable excellence.

Then hie to "THE ENGLISH" away,
with never a moment's delay,
Let nothing prevent, or you'll always repent
If you're tardy, and don't go to-day!

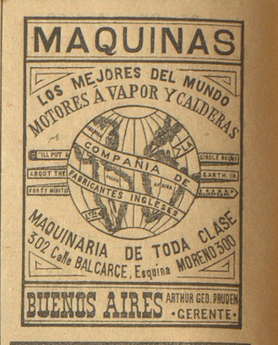
MAQUINAS



ON 'CHANGE.

Tuesday, October 27th 1892.

The gold market resumed its downward march this morning, in spite of the news that the Rojistas had defeated the Santiago rebels at Gramilla and that the Interventor and National troops would not leave for the scene of action until to-morrow. Meanwhile, by the time he enters upon his jurisdiction he may find the tables turned, the rebels turned out and the Rojistas again in power. The market, however, attaches little importance to Santiago at present; the revolution no longer affects the speculation and gold appears to be sinking under its own weight. Though the settlement of the month is

Don Patricio Ham sold this morning 8,000 kilos of fine Rambouillet wool from Dr. B. Irigoyen's estancia La Choza in Partido Rodriguez at 7.80$ m/n per 10 kilos.

Ex-Minister Hansen applied to-day to the Camara Sindical to be enrolled as money-broker. The petition of Mr. Hansen bears also the signatures of Don Ernesto Tornquist and Don Francisco Bustamante.

National Bank cheques were quoted to-day at 9% discount: those of the Provincial Bank at 33⅓% discount. Bonos of La Plata Mortgage Bank were at 19% of their face value.

Business in the National Land Office seems to be very brisk; people are at last getting their titles and their deeds through after years of delay. The deeds of sale are being made out for 20,000 hectares, stretching from the Isla Pantanosa in the Rio Negro to the Ejido de Viedma. The price paid, we suppose, is the Government price. Mr. Stephen Guerrero buyer. Several parties, who in the years of boom rented large tracts of land from the Government, are now giving back the land and getting up their pagares. Down in Patagones there is much excitement caused by the arrival of two parties from La Plata who state that they have rented from the Provincial Government the Government lands in the 5th Section; these lands, as we have on previous occasions remarked, are all settled upon by squatters, chiefly Basques and Danes who have large flocks of sheep and have been doing remarkably well, as they paid no rent and all the lands down there are better suited for sheep than cattle. These people will all have to move off these lands or pay rent of at least $1,000 per league. It is estimated that there are over 1,000,000 of sheep and all of a very good class on these lands. A French Basque sheep-farmer has arrived in town from these lands, he says that fully 100 sheep-farmers have been turned out from their "puestos" on 15 days' notice by the authorities, the owner of the land has established his titles and demanded possession. Some of these lands are marked on the map as belonging to the late Terence Moore, but they all now pass into the hands of their present owner, who is the largest sheep-farmer and cattle estanciero in the province of B. Ayres.

The Christopher feasts in the Boca are at last over; they were, beyond question, the greatest ever known down there, and their greatsuccess was mainly due to the untiring exertions of our old friend Don Domingo Cichero, the Lord Mayor of the Boca, who spared no expense to illuminate his house and its surroundings during the festival, and to adorn the streets with flags and bunting and contribute in every possible way to commemorate the name and fame of this illustrious fellow countryman. From the drawing-room windows of his stately mansion, which overlooks the Vuelta de Rocha, hung a magnificent portrait of the immortal Christopher, and it was a very happy idea of the Boca Lord Mayor to make this innovation, as ships going up and down the Riachuelo saluted the mansion as they passed, which was responded to from the house. We shall never forget the night we climbed Mount Vesuvius with Don Domingo and how near we both were of going to the other world; but the unconquered energy of our perspiring Italian friend overcame the doubts of the guides, the cries of the boys with the torches, and all the difficulties that surrounded us on that eventful night when, poisoned with the sulphur from the crater, and 32 bottles of miserable Vesuvian wine, we sat on the lava, the hot ashes burning through our very pantaloons; and when we implored of Don Domingo not to ascend the cone or approach the crater where an American tourist and his guide had perished a week before, we all remembered his reply, "What would the people of the Boca say if they heard I stopped here?" There was a certain Boca nationality in the answer which, spite of our truly desperate situation, captivated all. "Go up Don Domingo and die for the Boca" was our rejoinder, and up he went with one guide ahead pulling him with a rope and another behind with his hands on his hips pushing him forward, and thus he ascended. The difficulties of that night surpass description; the flames shot high over our heads from the volcano, underneath our very feet the steam was hissing through the lava, whilst terrible rumbling noises resembling the smashing of all the iron in Drysdale's yard deafened us all; and although we were all close together, we had to shout to be heard. The lovely city of Naples with its thousands of lights lay beneath us, and the wild ragamuffin costums of the pack of guides and boys with torch lights heightened the novelty, and we may say the charm of that never-to-be-forgotten night scene on Vesuvius. Mr. Cichero well merits the high honors his Boca friends have heaped on him; since his return he is the richest and largest proprietor in the Boca, and by every right the Lord of the Manor. His zeal last week during the Columbus fetes raised the Boca commemoration to a rank higher than those in this city; and we should not be surprised if King Humberto ennobled him for his services.

Mr. Donald McLellan, who has such a fame for buying the very best English blood stock for estancieros, leaves on the 22nd of November and will take orders. We hope he will bring out some really good milch cows, as some of the mestiza Durhams sold at auction here, and apparently great milkers, give no milk at all. A beautiful looking milch cow was sold the other day at auction and knocked down for 200 Nats. Mr. Carabassa, Mr. Santos Unzue and some others who saw the cow congratulated the buyer on his bargain; but they evidently knew more about pagares and bills of exchange than cows, as the cow in question, when driven to the quinta, proved a "clavo," as she didn't give a quart of milk in 24 hours and had to be sent off to the estancia.

Mr. Roberts, manager of the Western Railway, left this morning by special train for Trenquelauquen with a party of friends to go over the road and have a passing look at the crops along the line. We promise our readers an account of the trip.

The 38th anniversary of the founding of Chivilcoy was celebrated last week. Sarmiento after all was not far astray when casting the horoscope he spoke of one hundred Chivilcoys in the Plata.

The new budget will do away with all the foreign legations save three. The Legation Palace in Rome will, we suppose, be sold. Some Argento-Italian doubtless will buy it.

At the colony Santa Teresa the fine store of Mr. P. Merica was burnt down; loss 45,000%, insurance 20,000.

The great sugar factory Caspinchango in Tucuman has just been sold for 270,000%, being 30,000% over the valuation, which shows rather well for sugar. Mr. Lendesdorf buyer.

The greatest sugar factory in Tucuman, that of Don Wenceslao Posse, has closed its season and finished working. This splendid establishment comes next in importance to the Liebig meat factory in Fray Bentos.

Next month a meeting of shareholders of the Bristol Hotel, La Plata, will be held. We hope the company pays a good dividend, as the splendor of this hotel speaks for the outlay of capital by the shareholders. There are very few hotels in Europe to beat the Bristol, perhaps at Nice or Monte Carlo, but as a rule not even the model hotels of Switzerland beat the Bristol; but it needs great support to cover expenses.

A meeting of the shareholders of the Banco de Cobranzas y Anticipos is called to consider an offer presented for its purchase. The bank is at present in liquidation, therefore the offer to buy it up may prove most acceptable to many of its shareholders.

Telegrams from 8 departments of San Luis give most excellent news about the crops there, particularly Alfalfa, which is the great crop of that province. The "alfalfares" are magnificent after the late rains, so we may look forward to a drop in the price of hay, which is so very dear at present; but the consumption of hay in this city is something to stare at, and those who want to know what is going on in this line should visit the hay-market at the Railway station in the Once, where hay to feed the whole country comes in by the trains.

The rural tramway is now doing a great trade and brings to town every day large consignments of produce, which goes to show the correctness of Mr. Lacroze's judgment. We remember when he started it the opinion was it would never pay, but the experience of the last 2 years shows the contrary.

The B. A. Western R.R. changes its time table on the 1st November, the summer hours being again in force.

The Government has granted 2 years further time to Mr. Temple for the construction of his narrow gauge railway from this city to Rosario. We doubt very much if our trade with Rosario could support another line of railway, and hope that Mr. Temple will apply for a still further extension of another 5 years, as the provinces have yet to grow much before they can need any more lines with Buenos Ayres. As it is, Rosario is overdone with railways, and far more necessary is a railway from Bahia Blanca to the Colorado and thence to the Rio Negro, than a third line of railway from this city to Rosario. Dr. Quintana, our new Minister of the Interior, must be well aware of all this, and we hope that if his government does grant any railway concessions they will be for the construction of necessary lines and ones which the trade of the country calls for.

The sale of 9,000 bags of flour for Brazil deliverable in the Darsena is reported at $1.29. Also 10,000 bags of maize in the Central market at $5 %, and 500 bags of wheat at the station in Rosario at $8.30, and a lot of 10,000 bags of wheat offering in deposit, not yet sold. The sale of a large lot of 15,000 bags flour for Brazil also reported at $1.27.

Sr. Pareja of Buenos Ayres has converted his 'estancia' in Cordoba into one vast wheat and maize farm, and this land covered with coarse grass and which everyone thought was good for nothing is now producing some of the best wheat in the country; 4,000 squares ploughed up and all under wheat also a large tract under 'tartago.' The same may be said of the Venado Tuerto and Loreto camps, where people lost so much with sheep and cattle, but are now giving the very best results as wheat and maize farms, and along the line of the "Ferro Carril del Sud de Santa Fe y Cordoba" which is so well managed by Mr. Glasgow, one sees nothing but wheat and maize on all sides; the 'estancias have vanished, and very soon this line of Railway will find it hard work to carry all the produce of the rich district through which it runs.

There are great calculations made on 'Change now about the new crop; they say that of B. Ayres will be 30% in excess of the last crop, but in Santa Fe they only calculate it of last year's. In Corrientes the drought and locusts have done such great damage that the harvest will be a very poor one, but the recent rains up there have brought the camps round splendidly, as also in Santa Fe, where the colonists consider the wheat now too much grown and advanced to run any further danger from the locusts.

Mr. Julian Martinez has retired from the Bolsa, and several others are about to follow suit. The commissions going now are so few that they don't cover the "patente" and subscription.

Messrs. Sastre Premoli and Alvarado have formed a new firm as "consignatorios" of produce. We note that there are more new firms in this than any other gremio.

The great falling off in the excise duty is very remarkable.

Paper Money.

Projectors every now and then start up with plans for curing all the economical evils of society by means of an unlimited issue of inconvertible paper. There is, in truth, a great charm in the idea. To be able to defray the expenses of government without taxation, and, in fine, to make the fortune of the whole community, is a brilliant prospect, when once a man is capable of believing that printing a few characters on bits of paper will do it. The philosopher's stone could not be expected to do more.

The substitution of Paper for metallic currency is a national gain: any further increase of Paper beyond this is but a form of robbery.—*John Stuart Mill on Inconvertible Paper Currency.*

THREE GOOD REASONS.

Why Sheepmen everywhere should use

Alexander Robertson's

HIGHLAND SHEEP DIP.

Best Summer Protection for Sheep.

Cures Scab.

Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Cash. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infected sheep. The strongly adhesive nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly; but their use is disastrous to the farmer—the harsh, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.30 gold per gallon, and consist of tar Acid Oil (25 o/o), 6 lbs. Soap, Soda and Water 4 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, indeed, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1¼ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (25 o/o), 2 lbs. Carbolic Acid (95 o/o) 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

CHARLES OLMI

A SPLENDID PROPERTY

In the heart of the city

By dissolution of partnership

Magnificent position

1574--ALSINA--1574

between Lorea & Zeballos

8 3/4 yds. front by 55 deep

(altos y bajos)

18 rooms, solidly built IN TWO STORIES, tram at the door and corners.

Plastered ceilings and boarded floors.

The inch of land is worth gold in that locality.

Barely 10 squares from Plaza Victoria.

Two modern houses, in excellent condition, to produce a good monthly rent.

These houses have produced up to $600 per month.

The first story is actually let and gives $200 per month; the 2-stories can easily produce over $450 per month, and the upset price for the sale is

$22,000 m/n legales

!!! Ridiculous !!!

It is only by the chance of a dissolution of partnership that such an opportunity as this could arise, and it behooves all, rich and poor, men of business and speculators to take advantage of this occasion

The rich man: to live in a good quarter.

The poor man: to have a sure and positive source of income.

Business men: to speculate and quadruple their capital.

On Tuesday 1st of November

(Feastday)

at 4 o'clock sharp

I will proceed to sell by public auction by order of the owners with the upset price of $22,000 m/n, this magnificent property which can be seen any day from 8 o'clock a.m. to 6 p.m. Although the first story is let, the house can be freely visited.

The purchaser will pay 5 o/o when signing the boleto, as a guarantee of the purchase.

IMPORTANT AUCTION OF LAND

In the Province of

MENDOZA

10 square leagues of splendid camp in the

Departamento 25 de Mayo

(formerly San Rafael), Prov. of Mendoza

Attention, Speculators.

On Wednesday November 2d

at 3 o'clock in the afternoon

In my Rooms

566--PIEDAD--566

I will offer for sale by order of the owner these 10 leagues of camp, say 25,000 hectares at the absurdly low basis of 0.60 (sixty) cents per hectare or fifteen hundred dollars m/n.

$1,500 m/n per square league

These camps are situated one league from Rio Diamante.

The camp is splendid for cattle, agriculture and vineyards. The projected railway from 9 de Julio (Province of Buenos Ayres) to San Rafael (Province of Mendoza) will soon pass through these camps, the earthworks being already made.

These are the best camps of 25 de Mayo bought years ago by Mrs. Nicolasa Ortega de Passo.

Contiguous to these camps are those of Messrs. Emilio Wenk, Eufemio Godoy, Elias Godoy, Nicolas Villanueva and N. Patry, who have paid 10 times more than the basis of $1,500 per league, for which I now offer for sale these camps. It is a good investment.

Purchasers have option to take 1 2, 3 or more leagues and even fractions of league.

The first purchaser will have the option to the ten leagues.

Campo en Córdoba

La mitad de la estancia denominada El Chato.

16,487 hectareas de magnifico campo dividido en 20 lotes de 625 hectareas cada uno y otro de 3987 hectareas. Campo de superior calidad para la agricultura, rodeado de importantes Establecimientos formados en la Estacion Ausonia del F. C. de Villa Maria a la Carlota y Rufino, cruzado por el arroyo San Jose y conocida por de Cabral, de agua permanente.

Tiene 1 lotes de algarrobo y en el distrito existen los grandes alfalfares de los Funes, Diez y Ca. y las colonias de Dominguez, Ortiz, Ferreyra y otros. Con la ultima base de pesos 10 hectarea.

El Viernes 4 de Noviembre a las 2 p.m. en nuestra casa Alsina 480 y 482, remataremos por orden terminante de su dueño, el magnifico campo mencionado, cuya ubicacion no puede ser mas importante, pues solo dista 3 leguas de las Estaciones Villa Maria y Ballesteros del F. C. C. Argentino e igual distancia de la gran Estacion Villa Nueva, cabecera del ferro-carril de este punto a la Carlota, y a solo 25 cuadras de la Estacion Ausonia del F. C. a Rufino.

Tenemos de este campo los mejores informes: hace 150 años que esta poblado; abunda la gramilla y el trebol; rodeado de Colonias é inmejorable para la agricultura. Actualmente hay 8 puestos arrendados sin contrato.

El arroyo Cabral que mencionamos no tiene ahora gran caudal de agua por estar estas interceptadas por un tajamar cuya destruccion no se ha pedido hasta ahora por estar salpicado de lagunas permanentes

Como se ve por los datos que dejamos expuestos, este campo reune condiciones inmejorables tanto por su calidad, pastos y aguadas, como por su ubicacion y faciles medios de viabilidad y transporte.

Llamamos por tanto la atencion de los ganaderos y agriculturas por la infima base de la ven
